

Guerila Bay

WORKS PROGRAM

Map Ref No.	Treatment Ref No. in BFRMP	Strategy	Priority in BFRMP	Action	Responsible Agency	Scheduled action Date
1	2	Hazard Reduction	1B	Maintain APZ as required.	Private	11/12, 12/13, 14/15, 15/16
2	3	Community Engagement	1B	Community Meetings: Bush Fire Survival Plan	RFS	11/12, 12/13, 14/15, 15/16
3	4	Hazard Reduction	1B	Slash/Hand clear ESC SFAZ & APZ	LGA	11/12, 12/13, 14/15, 15/16
4	7	Hazard Reduction	1B	Monitor and maintain Private SFAZ as required	Private & RFS	11/12, 12/13, 14/15, 15/16
5	8	Hazard Reduction	1B	Monitor and maintain LGA SFAZ as required	LGA & RFS	11/12, 12/13, 14/15, 15/16
6	4	Hazard Reduction	1B	Implement Proposed APZ	LGA	11/12, 12/13, 14/15, 15/16
	19	Community Engagement	N/A	Promote Bush Fire Mitigation Strategies or CPP	RFS, DL, LGA, DECC & DPI	11/12, 12/13, 14/15, 15/16

Is your property fire-safe?

- Cut back any overhanging trees or shrubs and dispose of cuttings appropriately.
- Check the condition of your roof and replace any damaged or missing tiles.
- Clean leaves from the roof, gutters and downpipes and fit quality metal leaf guards.
- Non-combustible fences are the most effective at withstanding the intense heat generated by bush fire.
- Plant trees and shrubs that are less likely to ignite due to their low oil content.
- If you have a water tank, dam or swimming pool, consider installing a Static Water Supply sign (SWS).
- Enclose sub-floor areas.
- Store wood piles well away from the house and keep covered.
- Keep garden mulch away from the house and keep grass short.
- Make sure the pressure relief valves on LPG cylinders face outwards.
- Ensure you have a hose which is long enough to reach every part of the home.
- Remove and store any flammable items away from the house.
- Install metal fly-wire or solid screens to the outside windows and doors.
- Have a non-combustible doormat.

Zone	Purpose	Suppression Objectives	Zone Characteristics
Asset Protection Zone	To protect human life, property and highly valued public assets and values.	To enable the safe use of Direct Attack suppression strategies within the zone. To minimise bush fire impacts on undefendable assets.	As per RFS document Standards for Asset Protection Zones.
Strategic Fire Advantage Zone	To provide strategic areas of fire protection advantage which will reduce the speed and intensity of bush fires, and reduce the potential for spot fire development. To aid containment of wildfires to existing management boundaries.	To improve the likelihood and safe use of Parallel Attack suppression strategies within the zone, and/or Indirect Attack (back burning) in high to very high fire weather conditions within the zone. To reduce the likelihood of Crown fire development within the zone, and/or Spot fire ignition potential from the zone.	Zone width related to suppression objectives and dependant upon: -Topography -Aspect -Spotting propensity -Location of adjacent firebreaks -Mosaic pattern of treatment Assess Overall Fuel Hazard (OFH) once vegetation communities reach minimum fire thresholds within this plan. Management practices should aim to achieve mosaic fuel reduction patterns so that the majority of the SFAZ has an OFH of less than high.

PRODUCTION INFORMATION

Base Data: LPMA Cadastre and Topo Database
 Map Projection: GCS GDA 1994
 Print Date / Time: 29/05/2012 15:00Hrs
 Produced by: K White NSW RFS

WARNING INFORMATION

- This map has been prepared by a NSW Government Agency ("the Agency") using data supplied to it by other agencies and entities.
 - in the time between which the data was originally collected and the map produced; and
 - since the map was produced.
- The Agency has not verified or checked the data used to prepare this map. The map may contain error or omissions. The Agency has not made any attempt to ground truth the map.
- There will be a margin of error in relation to the location of Features recorded on the map. The Agency is unable to specify the extent or magnitude of that margin of error.
- Significant changes may have occurred:
 - in the time between which the data was originally collected and the map produced; and
 - since the map was produced.
- Users must, wherever possible, ground truth the map before relying on it or the accuracy of the map or the information recorded on the map for any purpose. The Agency accepts no responsibility for any injury loss of damage arising from the use of this map or any errors or omissions in the information recorded on the map.

BUSH FIRE SURVIVAL PLAN

Always be prepared; a well prepared family and home is more likely to survive.
