

PLANNING TO MAKE A PLAN IS NOT A PLAN!

Download a copy of the Bush Fire Survival Plan from www.rfs.nsw.gov.au

Bush Fire Preparation Map

Crescent Head

Map Ref No.	Strategy	Action	Responsible Agency	Action Schedule
CH1	Hazard Reduction	Conduct prescribed burning to maintain a strategic area of reduced fuel loads (Strategic Fire Advantage Zone).	Dept. of Trade and Investment – Crown Lands, NSW Rural Fire Service	Prescribed burn to be conducted wher Overall Fuel Hazard Reaches High
CH2	Hazard Reduction	lazard Reduction Conduct prescribed burning to maintain a strategic area of reduced fuel loads (Strategic Fire Advantage Zone) Dept. of Trade and Investment – Cri Lands, NSW Rural Fire Service		Prescribed burn to be conducted when Overall Fuel Hazard Reaches High
СНЗ	Hazard Reduction	on Conduct prescribed burning to maintain a strategic area of reduced fuel loads (Strategic Fire Advantage Zone) Dept. of Trade and Investment – C further enhancing the adjacent Asset Protection Zone. Lands, NSW Rural Fire Service		Prescribed burn to be conducted when Overall Fuel Hazard Reaches High
CH4	Hazard Reduction			Prescribed burn to be conducted when Overall Fuel Hazard Reaches High
CH5	Hazard Reduction	Conduct prescribed burning to maintain a strategic area of reduced fuel loads (Strategic Fire Advantage Zone) further enhancing the adjacent Asset Protection Zone.	Office of Environment & Heritage (NPWS)	Prescribed burn to be conducted when Overall Fuel Hazard Reaches High
CH6	Hazard Reduction	Conduct prescribed burning to achieve a combination of ecological and fire management principles.	Dept. of Trade and Investment – Crown Lands, NSW Rural Fire Service	Prescribed burn to be conducted at a minimum interval of 10 years.
CH7	Hazard Reduction	Conduct prescribed burning to achieve a combination of ecological and fire management principles.	Kempsey Shire Council, NSW Rural Fire Service	Prescribed burn to be conducted at a minimum interval of 10 years.
CH8	Hazard Reduction	Conduct prescribed burning to maintain a strategic area of reduced fuel loads (Strategic Fire Advantage Zone) further enhancing the adjacent Asset Protection Zone.	Kempsey Shire Council, NSW Rural Fire Service	Prescribed burn to be conducted whe Overall Fuel Hazard Reaches High
CHA1	Hazard Reduction	Cyclical maintenance of rear yards of properties along Dulconghi Street to provide an Asset Protection Zone.	Private Property	Ongoing
CHA2	Hazard Reduction	Conduct Trittering works to maintain Asset Protection Zone for Big Nobby communications facilities.	Kempsey Shire Council	Annually prior to fire season
CHC1	Hazard Reduction	Cyclical maintenance of front yards of properties and roadside verges along Skyline Crescent to provide an Asset Protection Zone.	Private Property, Kempsey Shire Council	Ongoing
CHC15	Hazard Reduction	Conduct slashing/trittering works to maintain Asset Protection Zone for Back Beach Reservoir.	Kempsey Shire Council	Annually prior to fire season
CHC2A	Hazard Reduction	Conduct slashing to the rear of the properties along Skyline Crescent in order to provide an Asset Protection Zone.	Office of Environment & Heritage (NPWS)	As required
CHC2B	Hazard Reduction	Slash/Mow Roadside verge and cyclical yard maintenance to maintain overall Asset Protection Zone to houses along Charles Parry Place and Richard Elrington Street.	Private Property, Kempsey Shire Council.	As required
CHC3	Hazard Reduction	Conduct slashing/trittering works to maintain Asset Protection Zone to the south of Crescent Head Public School.	Kempsey Shire Council	Annually prior to fire season
CHD14	Hazard Reduction	Conduct slashing/trittering works to maintain Asset Protection Zone to the rear of the properties along Allman Place.	Dept. of Trade and Investment – Crown Lands	Annually prior to fire season
R1, LR2, R3	Hazard Reduction	Conduct prescribed burning to maintain a strategic area of reduced fuel loads (Strategic Fire Advantage Zone).	Local Aboriginal Land Council, NSW Rural Fire Service	Prescribed burn to be conducted whe Overall Fuel Hazard Reaches High
LRD1	Hazard Reduction	Conduct slashing/trittering around houses along Loftus Road to maintain Asset Protection Zone.	Local Aboriginal Land Council	Twice yearly
LRD2	Hazard Reduction	Cyclical maintenance of the property to provide an Asset Protection Zone.	Private	As required
Not Mapped	Community Education	Street walk in Skyline Crescent, Dulconghi Street, Charles Parry Street, Richard Elrington Street, Allman Place engaging with residents in regards to Bush Fire Survival Planning and the CPP Bush Fire Survival Map.	NSW Rural Fire Service	Ongoing
Not Mapped	Property Planning	Develop, implement and review Bush Fire Emergency Management Plan for applicable Special Fire Protection at Risk Assets.	Department Of Education and Communities, NSW Rural Fire Service, Private	Annual
Not Mapped	Property Planning	The Crescent Head Rural Fire Brigade undertakes Pre-Incident Planning to further develop the response capacity of the brigade.	NSW Rural Fire Service	Ongoing
Paul Clancy	Preparedness	Inspect and maintain Paul Clancy Trail to an Essential Category 1 Trail standard in accordance with the Bush Fire Coordinating Committee Policy for Fire Trails.	Office of Environment & Heritage (NPWS), NSW Rural Fire Service	Annual inspection prior to fire season Maintenance as required.

Is your property fire-safe?

- . Cut back any overhanging trees or shrubs and dispose of cuttings
- 2. Check the condition of your roof and replace any damaged or missing tiles. 3. Clean leaves from the roof, gutters and downpipes and fit quality metal leaf
- 4. Non-combustible fences are the most effective at withstanding the intense
- 6. If you have a water tank, dam or swimming pool, consider installing a Static
- . Keep garden mulch away from the house and keep grass short. 0. Make sure the pressure relief valves on LPG cylinders face outwards.
- 14. Have a non-combustible doormat.

Zone	Purpose	Supression Objectives	Zone Characteristics
Asset Protection Zone	To protect human life, property and highly valued public assets and values.	To enable the safe use of Direct Attack suppression strategies within the zone. To minimise bush fire impacts on undefendable assets.	As per RFS document Standards for Asset Protection Zones.
Strategic Fire Advantage Zone	To provide strategic areas of fire protection advantage which will reduce the speed and intensity of bush fires, and reduce the potential for spot fire development; To aid containment of wildfires to existing management boundaries.	To improve the likelihood and safe use of: Parallel Attack suppression strategies within the zone. and/or Indirect Attack (back burning) in high to very high fire weather conditions within the zone. To reduce the likelihood of: Crown fire development within the zone. and/or Spot fire ignition potential from the zone.	Zone width related to suppression objectives and dependant upon: *Topography *Aspect *Spotting propensity *Location of adjacent firebreaks *Mosaic pattern of treatment Assess Overall Fuel Hazard (OFH) once vegetation communities reach minimum fire thresholds within this plan. Management practices should aim to achieve mosaic fuel reduction patterns so that the majority of the SFAZ has an OFH of less than high.
Resident Preparation Zone	To identify that residents / property owners have a vital role to play in bush fire risk management and that they are responsible for their own property preparedness.	To increase the preparedness of residents for bush fire and ensure that vegetation in close proximity to residential assets are adequately maintained. To provide a defendable space for residents / fire fighters and complement hazard reduction works carried out within Asset Protection Zones / Strategic Fire Advantage Zones.	Residents / property owners should strive to achieve a 'Fire-Safe' property as outlined in the illustration above. Concerns regarding the bush fire safety of neighbouring properties should be raised with the NSW Rural Fire Service.

WARNING INFORMATION

- 1. This map has been prepared by the NSW Rural Fire Service ("The Service") using data supplied to it by other agencies and entities. See the "Data Dictionary" for further information about the sources of this data. 2. The Service has not verified or checked the data used to prepare this map. The map may contain errors and omissions. The
- Service has not made any attempt to ground truth the map. 3. There will be a margin of error in relation to the location of features recorded on the map. The Service is unable to specify
- the extent or magnitude of that margin of error. Significant changes may have occurred;
 - i. In the time between which the data was originally collected and the map produced; and ii. Since the map was produced
- 5. Users must, wherever possible, ground truth the map before relying on it or the accuracy of the map or the information recorded on the map for any purpose.
- 6. The Service accepts no responsibility for any injury loss or damage arising from the use of this map or any errors or omissions in the information recorded on the map.
