

GET READY FOR A BUSH FIRE

There are four simple steps to get ready for a bush fire:

Get prepared for the Bush Fire Season and make your Bush Fire Survival Plan now.

Go to www.myfireplan.com.au and discuss with your family what to do if a fire starts near you.

Bush Fire Preparation Map

Cumborah

WORKS PROGRAM

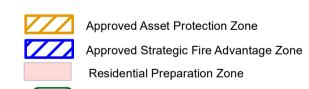

Strategy	Action	Map Ref	Responsible Agency	Supporting Agency	Target /Y
Property Planning	Develop pre-incident plans for the Neighbourhood Safer Place and residential bushland/interface areas	N/A	NSW Rural Fire Service	N/A	Ongoing 2019
Hazard Reduction Mechanical	Inspect Asset Protection Zones		NSW Rural Fire Service	Department of Industry-Lands and Water/Local Land Services	Annually pro
	Maintain bushfire fuels at or below the level that meets the Essential Selection Criteria specified in the NSP Guide- lines prepared by RFS		Department of Industry-Lands and Water/Local Land Services/Walgett Shire Council	NSW Rural Fire Service	Ongoing 2019
	Maintain Linear Fire Breaks by grading/slashing/brushcutting		Department of Industry-Lands and Water/Local Land Services/Walgett Shire Council	NSW Rural Fire Service	Ongoing 201
	Maintain roadside verges and road corridors by grading/slashing/brushcutting	N/A	Walgett Shire Council	NSW Rural Fire Service	Ongoing 201
	Maintain Strategic Fire Advantage Zones by reducing the density of Cypress pine tree stems		Department of Industry-Lands and Water/Local Land Services	NSW Rural Fire Service	Ongoing 201
Preparedness	Develop a Fire Access and Fire Trail Plan	N/A	All agencies	NSW Rural Fire Service	2019
	Inspect and report on condition of Fire Trails	N/A	Department of Industry-Lands and Water/Walgett Shire Council	NSW Rural Fire Service	Annually pre-f
	Maintain Fire Trails to standard	N/A	Department of Industry-Lands and Water/Local Land Services	NSW Rural Fire Service/Walgett Shire Council	Ongoing 201
	Maintenance of Residential Preparation Zones		Private landholders	NSW Rural Fire Service	Ongoing 201
Ignition Management	Manage use of fire in the environment through Fire Permits, Hazard Reduction Certificates & Camp Fire restrictions	N/A	NSWRFS	Department of Industry-Lands and Water/ Walgett Shire Council	2019-20
Community Education	Promote Community Protection Plan in any bushfire engagement activity	N/A	NSWRFS	All agencies	2019-20
	Install Community Protection Plan Survival and Preparation Map display signage	N/A	NSW Rural Fire Service	Walgett Shire Council	2019
	Conduct street walk/morning tea to educate and assist residents with the development of bush fire survival plans	N/A	NSWRFS	N/A	2019-20

Is your property fire-safe?

Zone	Purpose	Supression Objectives	Zone Characteristics
Asset Protection Zone	To protect human life, property and highly valued public assets.	To enable the safe use of Direct Attack suppression strategies within the zone. To minimise bush fire impacts on undefendable assets.	As per RFS document Standards for Asset Protection Zones.
Strategic Fire Advantage Zone	To provide strategic areas of fire protection advantage which will reduce the speed and intensity of bush fires, and reduce the potential for spot fire development; To aid containment of bush fires to existing management boundaries.	To improve the likelihood and safe use of: Parallel Attack suppression strategies within the zone. and/or Indirect Attack (back burning) in high to very high fire weather conditions within the zone. To reduce the likelihood of: Crown fire development within the zone. and/or Spot fire ignition potential from the zone.	Zone width related to suppression objectives and dependant upon: •Topography •Aspect •Spotting propensity •Location of adjacent firebreaks •Mosaic pattern of treatment Assess Overall Fuel Hazard (OFH) once vegetation communities reach minimum fire thresholds within this plan. Management practices should aim to achieve mosaic fuel reduction patterns so that the majority of the SFAZ has an OFH of less than high.
Residential Preparation Zone	To identify that residents / property owners have a vital role to play in bush fire risk management and that they are responsible for their own property preparedness.	To increase the preparedness of residents for bush fire and ensure that vegetation in close proximity to residential assets is adequately maintained. To provide a defendable space for residents / fire fighters and complement hazard reduction works carried out within Asset Protection Zones / Strategic Fire Advantage Zones.	Residents / property owners should strive to achieve a 'Fire-Safe' property as outlined in the illustration above. Concerns regarding the bush fire safety of neighbouring properties should be raised with the NSW Rural Fire Service.

WARNING INFORMATION

- This map has been prepared by the NSW Rural Fire Service ("The Service") using data supplied to it by other agencies and entities. See the "Data Dictionary" for further information about the sources of this data.
- 2. The Service has not verified or checked the data used to prepare this map. The map may contain errors and omissions. The Service has not made any attempt to ground truth the map.
- 3. There will be a margin of error in relation to the location of features recorded on the map. The Service is unable to specify the extent or magnitude of that margin of error.
- 4. Significant changes may have occurred;

 i. In the time between which the data was originally collected and the map produced; and
- ii. Since the map was produced 5. Users must, wherever possible, ground truth the map before relying on it or the accuracy of the map or the information
- 6. The Service accepts no responsibility for any injury loss or damage arising from the use of this map or any errors or omissions in the information recorded on the map.
